DETAILED ACTION

Response to Amendment

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

Allowable Subject Matter

2. Claims 1 – 11 and 13 – 20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 11 and 13 recite, inter alia, a method of copper metallization comprising the step of forming a buffer zone on a surface of the copper layer by applying an NF_3 plasma to the copper layer and depositing a capping layer over it. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 14 – 20 recite, inter alia, a method of copper metallization comprising the step of forming a buffer zone on a surface of the copper layer by applying a gas containing F ions to remove the oxide layer and depositing a capping layer over it. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
